

# KSHITIJ SUKHADEORAO ATRAM

Nagpur, India | (+91)7620310765 | [kshitijatram.work@gmail.com](mailto:kshitijatram.work@gmail.com) | [LinkedIn Profile](#)

I am a Full Stack Web Developer skilled in creating interactive and responsive web pages with HTML5, CSS3, Bootstrap 5, and JavaScript ES6+. I have experience with React, Django, SQL, RESTful APIs, and authentication. I quickly adapt to new technologies, ensuring my solutions are innovative and up-to-date.

## Skills & Other

### Front-end Technologies:

HTML5, CSS3, JavaScript, Bootstrap, JQuery, ReactJs.

### Back-End Technologies:

PHP, SQL, Python, Django, pip, PostgreSQL.

### Programming Languages:

C, C++, Java, C#, Python.

### Other Technologies:

Github, Netlify, VS Code, Sublime Text, Chat GPT.

## Education & Certificates

### Course: BCA (2021 – 2024) | 8.04 CGPA

D.C.P.E., H.V.P.M, Amravati, Maharashtra, India.

### Course: XII (HSC) 2019 - 2021 | 82.17%

Bapuraoji Deshmukh Jr. College, Amravati, Maharashtra, India.

- Python & Power BI at Makryto Innovations Pvt. Ltd.
- Bootstrap at Mindluster.com

## EXPERIENCE

### Business Web Solutions | Intern | (Remote) New Delhi, India Aug 2024

June 2024 –

Gained hands-on experience in both front-end and back-end web development. Acquired skills in: Front-End Web Development: HTML5, CSS3, Bootstrap 5, JavaScript ES6+, JSON, AJAX, jQuery, DOM Manipulation, and React (including advanced React.js module).

Back-End Web Development: Python, Django, Pip, SQL, SQLite, PostgreSQL, REST APIs, and Authentication. Developed projects, applying learned technologies to develop and enhance web applications. Collaborated with a team to implement and test features, and gained experience in debugging and optimizing code.

### Unified Mentor | Intern | (Remote) Haryana, India

June 2024 – Aug 2024

Acquired hands-on experience in web development with a focus on modern technologies. Worked extensively with:

Front-End Development: HTML, CSS, JavaScript.

Backend and Database: Firebase for real-time database management and authentication.

Applied these skills to develop and enhance web applications, focusing on integrating Firebase services to manage data and user authentication efficiently.

## PROJECTS

- **Portfolio** – [Live Demo](#)

Designed and developed a responsive portfolio website using HTML, CSS, and JavaScript. Showcased my skills and projects, including detailed information about myself and several mini-projects I created. Implemented an intuitive user interface for easy navigation. Ensured cross-browser compatibility and mobile responsiveness.

- **Data Analyst Portfolio** – [Live Demo](#)

Developed a fully responsive portfolio website for a data analyst, effectively showcasing skills and experience through an engaging and user-friendly interface.

- **Weather App** : [Live Demo](#)

Developed a dynamic web page displaying real-time weather data, including temperature, weather conditions, humidity, and wind speed, based on user input. Utilized APIs for data retrieval and presented it in a user-friendly interface. Technologies used: HTML, CSS, JavaScript, API integration.
